

Announcing the 10th Congress of Methodological Issues in Oral Health Research (MIOHR)

The quality not the quantity of research matters

University of Bern, Switzerland
9–11 September, 2024

Professor Nikolaos Pandis would like to invite you to the biannual Congress on Methodological Issues of Oral Health Research. We have 5 world renowned keynote speakers on research methodology and multiple sessions for short oral presentations and posters.

■ **Professor Dominique Declerck, KU Leuven, Leuven, Belgium**
«Oral health research: some critical reflections»

■ **Professor Leo Held, University of Zurich, Switzerland**
«Issues in Reproducibility and Replicability»

■ **Professor Dimitris Mavridis, University of Ioannina, Greece**
«An introduction to pairwise and network meta-analysis»

■ **Professor Nicholas Jakubovics, University of Newcastle, UK**
«Quality and equality in dental research: Perspective from the Journal of Dental Research»

■ **Professor Marcel Zwahlen, University of Bern Switzerland**
«Preventing immortal time and other biases in observational studies via the target trial methodology»
